Green Bay Net is a prepay service. All pricing is based on credit card autobilling. Automatic billing is done near the end of the month prior to the service month. Monthly pricing and contract break-outs will be billed if credit card on file becomes invalid.

Unmetered (i.e. Disconnect when not in use) standard access is intended for single business workstations, home users and light business use. Dedicated service and DSL (i.e. "always on") is intended for multiple workstations, business servers and heavy home users. If you wish to be on for more than five hours per day on a regular basis, please be sure you maintain an appropriate plan to be sure additional fees do not apply.

My signature below signifies that I have read, understand and agree with the terms and conditions set forth by Green Bay Net as explained in the Acceptable Use Policy (AUP) and the Terms of Service (TOS), as posted and maintained at http://www.Green Bay Net.com. I agree to remain a customer in good standing for the term selected above and authorize Green Bay Net to automatically debit my Visa/MC listed above for associated fees charged on a recurring basis. Should my account be prematurely cancelled (either voluntarily or involuntarily), I understand that I will be immediately responsible for any waived fees as a result of this contract, along with a $100 early termination fee for dialup service ($200 for DSL and ISDN). This amount may be charged to the credit/debit card on file.

At the end of the contract term, I understand that my ongoing account will be automatically converted to the current month to month rate without notice, unless a valid cancellation is received before that time as outlined in the Green Bay Net TOS.
